Problems and Trouble Shooting

If any of the following problems occur when using the WAT-03U2:

- An optimal picture cannot be obtained, after checking that all the cables and connections are correctly in place.
- Smoke or any unusual odor emerges from the WAT-03U2.
- An object becomes embedded or a quantity of liquid seeps into the camera housing.
- More than the recommended voltage or amperage has been applied to the WAT-03U2.
- Anything unusual occurring to any equipment connected to the WAT-03U2.

Disconnect the camera immediately according to the following procedures:
1. Switch off the main power supply to the camera.
2. Remove the cables connected to the WAT-03U2.
3. Contact the distributor or dealer from which the WAT-03U2 was purchased.

About EMC

The WAT-03U2 is in conformity with EMC test standards carried out by authorized organizations in Japan.

- FCC Part15 class B
- EN55022 / EN55024

Compliance with EMC standards are confirmed using components/peripheral accessories included with the camera.

- Do not modify the WAT-03U2. A modified camera may not conform to EMC test standards.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

About tripod adaptor

If using the mounting bracket (included), please refer to the figure below and securely attach the bracket to the camera using the M5×8mm screws (included).

(Adaptor Installation Example)
